ance Notes on Codes and Abbreviations" appearing at the begin-
ning of each regular issue of the PCT Gazette.

(54) Title: CONVEX LUMINANT SIGN

(57) Abstract: The present invention relates to an electric sign comprising an front side (2), a rear side (4) and at least one side surface (5, 6, 15) that extends between and links together the front side (2) and the rear side (4), where a light guiding interior of a transparent material is comprised between said front side (2), rear side (4) and side surface (5, 6, 15), a lighting appliance (8) being arranged in connection with said side surface (5, 6, 15) in order to emit light to the light guiding material, and the rear side (4) being adapted to comprise figures (3) reflecting the light from the lighting appliance (8), through the front side (2) of the electric sign, characterised in that the front side (2) of the electric sign (1) is convex.
